

IBPS RRB PO Important Questions

Reasoning

Reasoning

Que. 1

Directions: These questions are based on the following information.

E, F, G, H, I, J, K, L, and M are the nine people in a family. F is the maternal aunt of H who is the maternal uncle of M. L is the brother of J who is the only daughter of E. I is the mother of L and H. K is the sister of M who is the son of G. G is not the mother of M.

How is J related to F?

- 1.) Brother
- 2.) Maternal Aunt
- 3.) Sister
- 4.) Niece
- 5.) Daughter

Correct Option - 4

Que. 2

How is H related to J?

- 1.) Uncle
- 2.) Father
- 3.) Brother
- 4.) Brother-in-law
- 5.) Husband

Correct Option - 3

Que. 3

How is M related to G?

- 1.) Son
- 2.) Daughter
- 3.) Brother-in-law
- 4.) Grandson
- 5.) Grandfather

Correct Option - 1

Que. 4

How is I related to F?

- 1.) Brother
- 2.) Sister
- 3.) Niece
- 4.) Nephew
- 5.) Can't be determined

Correct Option - 2

Que. 5

Directions: Read the information given below carefully and answer the questions that follow.

Eight people A, B, C, D, E, F, G and H are sitting around a rectangular table, not necessarily in the given order, in such a way that four of them are sitting at the corners and the rest of them are at the centre of each side. Four are facing towards the centre of the table and the rest of them are facing outwards to the table. A is sitting at one of the corners and facing outwards. B is sitting second to the right of A and facing the opposite direction of A. H facing towards the centre of the table. F is sitting opposite of B and facing each other. D is sitting third to the left of A. C is sitting at the immediate left of E. H opposite to C. G is sitting between A and B and facing towards the centre.

Find the odd one out?

- 1.) B
- 2.) E
- 3.) D
- 4.) A
- 5.) F

Correct Option - 3

Que. 6

Who is sitting the immediate right of person C?

- 1.) E
- 2.) B
- 3.) H
- 4.) G
- 5.) None

Correct Option - 1

Que. 7

Which of the following statement is correct?

- 1.) G is facing towards the table but sitting opposite A.
- 2.) F is sitting second to the right of E.
- 3.) D is third to the left of G.
- 4.) H is sitting between C and E.
- 5.) None of these

Correct Option - 2

Que. 8

Who is sitting exactly between the H and D?

- 1.) E
- 2.) C
- 3.) F
- 4.) A
- 5.) G

Correct Option - 3

Que. 9

Four of the following five are alike in a certain way based on the given seating arrangement and thus form a group. Which is the one that **does not** belong to the group?

- 1.) H and C

- 2.) A and E
- 3.) B and F
- 4.) H and D
- 5.) G and D

Correct Option - 4

Que. 10

Directions: Read the instructions carefully and answer the question below.

Kabaddi teams of seven different countries, India, Spain, Italy, Brazil, Canada, Nepal, and China, are wearing jerseys of seven different colours namely, White, Purple, Red, Orange, Blue, Green, and Yellow, but not necessarily in the same order.

Nepal and Brazil are wearing White and Yellow Jerseys but not necessarily in the same order. Neither Spain nor Nepal is wearing White or Green. Italy and Spain are wearing Red and Green but not necessarily in the same order. India is not wearing Purple jersey. Canada is not wearing either Blue or Purple.

Which country is wearing the Purple Jersey?

- 1.) Spain
- 2.) Nepal
- 3.) India
- 4.) Italy
- 5.) None of the above

Correct Option - 5

Que. 11

Canada is wearing the jersey of which colour?

- 1.) Yellow
- 2.) Orange
- 3.) Green
- 4.) Blue
- 5.) Red

Correct Option - 2

Que. 12

Which amongst the following team is wearing White Jersey?

- 1.) India
- 2.) China
- 3.) Spain
- 4.) Brazil
- 5.) Canada

Correct Option - 4

Que. 13

Identify which of the following is correctly matched?

- 1.) Spain – Purple
- 2.) India – Blue
- 3.) China – Green
- 4.) Nepal – Red
- 5.) Canada – White

Correct Option - 2

Que. 14

Which team is wearing the Yellow jersey?

- 1.) Brazil
- 2.) India
- 3.) Nepal
- 4.) Italy
- 5.) China

Correct Option - 3

Que. 15

Directions: Study the information given below carefully and answer the questions that follow:

W is 6m west of P. V is 8m east of Q. S is 12m north of T, which is 6m west of U. R is 4m east of S. W is 2m north of V. Q is 10m south of R.

What is the shortest distance between Q and S?

- 1.) $4\sqrt{10}$ m
- 2.) $3\sqrt{15}$ m
- 3.) $2\sqrt{31}$ m
- 4.) $2\sqrt{29}$ m
- 5.) $3\sqrt{13}$ m

Correct Option - 4

Que. 16

What is the direction of R with respect to V?

- 1.) North-east
- 2.) North-west
- 3.) South-east
- 4.) South-west
- 5.) None of these

Correct Option - 2

Que. 17

What is the total distance between Q and T?

- 1.) 26 m
- 2.) 22 m
- 3.) 30 m
- 4.) 28 m
- 5.) 25 m

Correct Option - 1

Que. 18

What is the direction of P with respect to U?

- 1.) North
- 2.) North-east
- 3.) South-west

4.) South

5.) West

Correct Option - 2

Que. 19

Direction: In the question below two statements are given followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Some eyes are not worthy.

Some eyes are lucky.

Conclusions:

I. Some worthy are lucky.

II. No worthy is lucky.

1.) Only I follows

2.) Only II follows

3.) Either I or II follows

4.) Neither I nor II follows

5.) Both I and II follow

Correct Option - 3

Que. 20

Direction: In the question below three statements are given followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All A are B.

All B are C.

Only a few D are C.

Conclusions:

I. Some D are not C.

II. Some D are A.

1.) Only conclusion I follows

2.) Only conclusion II follows

3.) Both conclusion I and II follow

4.) Either conclusion I or II follows

5.) Neither conclusion I nor II follows

Correct Option - 1

Que. 21

Direction: In the question below are given three statements followed by two conclusions numbered I, and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the

conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statement:

Some finger are thumbs

Some thumbs are nails

All nails are knee

Conclusion:

I. At least some fingers are nails

II. No finger are nails

1.) Only I follow

2.) Only II follow

3.) Both I and II follow

4.) Either I or II follow

5.) Neither I nor II follow

Correct Option - 4

Que. 22

Direction:- In the question below are given two statements followed by two conclusions numbered I, II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All Eggs are Hen.

Some Hen are Chicks.

Conclusion:

I. Some Eggs are Chicks.

II. No eggs is Chicks.

1.) Only I follows.

2.) Only II follows

3.) Both I and II follows

4.) Either I or II follows

5.) None follows

Correct Option - 4

Que. 23

Directions: In the question below are three statements followed by two conclusions numbered I and II. You have to take the statements to be true and even if they seem to be variance with commonly known facts and then decide which of the given conclusions logically follow from the given statements disregarding commonly known facts and give the answer.

Statements:

No sphere is cubical.

Some cubical are circle.

All squares are spheres.

Conclusions:

I. No cubical is a square

II. All sphere being circle is a possibility.

- 1.) Only conclusion I follow.
- 2.) Only conclusion II follows.
- 3.) Either conclusion I or II follows.
- 4.) Neither conclusion I nor II follows.
- 5.) Both conclusion I and conclusion II follow.

Correct Option - 5

Que. 24

Directions: Study the following information and answer the given questions:

There are six pole named P, Q, R, S, T, and U of different heights. P is taller than S and R. Q is taller than P but shorter than T. R is not the shortest. S is shorter than only three polls. The third tallest poll has 95cm in height.

Which pole is the tallest?

- 1.) Q
- 2.) R
- 3.) S
- 4.) T
- 5.) U

Correct Option - 4

Que. 25

If the height of P and T is 250cm and the height of P and S is 175cm, then what is the height of T?

- 1.) 200
- 2.) 175
- 3.) 155
- 4.) 125
- 5.) 105

Correct Option - 3

Que. 26

Direction: Study the given information carefully and answer the following questions.

There are eight persons namely P, Q, R, S, T, U, V, and W living in a building with four floors. The ground floor is numbered as 1 while the top floor is numbered as 4. Each floor has two flats such Flat A and Flat B. Flat A of all floors stays vertically in the same line and Flat B of all floors stays vertically in the same line. Flat B of all floors stays east to flat A of all floors.

U lives to the west of P. There are two floors between Q and P who do not live on the ground floor. R and S live on the same floor. R lives one floor above W. There is a one-floor gap between P and V and Both live on the same numbered flat. W does not live on flat B of any floors. T does not live on flat B. R lives same numbered flat as U

Who among the following stays on the ground floor?

- 1.) R
- 2.) S
- 3.) U
- 4.) T
- 5.) W

Correct Option - 4

Que. 27

Who lives on flat B of third floor?

- 1.) V
- 2.) T
- 3.) R
- 4.) S
- 5.) Q

Correct Option - 4

Que. 28

Who lives exactly above Q?

- 1.) U
- 2.) R
- 3.) W
- 4.) V
- 5.) T

Correct Option - 4

Que. 29

Four of the following five are similar in a certain way in the group, find the one that does not belong to the group?

- 1.) P
- 2.) U
- 3.) T
- 4.) W
- 5.) R

Correct Option - 1

Que. 30

How many persons live between S and T?

- 1.) One
- 2.) Two
- 3.) Three
- 4.) Four
- 5.) None of the above

Correct Option - 2

Que. 31

Directions: Study the following information and answer the given questions.

In a class, there are eight students P, Q, R, S, T, U, V, and W sitting around a circular table. Each of them got different marks i.e, 30, 40, 50, 60, 70, 80, 90, and 95 in an exam. But not necessarily in the same order.

P is sitting opposite to Q, who secured 70 marks in an exam. W sits immediately to the right of P. Only one person sits between T and W. Two persons sit between P and U. U secured 60 marks. S is an immediate neighbor of U and V. S sits opposite to one, who secured 90 marks in an exam. W got the highest marks in an exam. P got the least marks in an exam. Three students sit between T and V, who secured 40 marks. W sits third to the right of one who secured 50 marks.

Who sits third to the left of W?

- 1.) S
- 2.) T
- 3.) U
- 4.) V
- 5.) P

Correct Option - 1

Que. 32

Who is sitting opposite to S?

- 1.) U
- 2.) V
- 3.) R
- 4.) P
- 5.) W

Correct Option - 3

Que. 33

Who secured 50 marks in an exam?

- 1.) U
- 2.) V
- 3.) W
- 4.) P
- 5.) S

Correct Option - 5

Que. 34

Who sits third to the right of P?

- 1.) R
- 2.) T
- 3.) U
- 4.) V
- 5.) W

Correct Option - 2

Que. 35

How many marks did T score in the exam?

- 1.) 90 marks
- 2.) 80 marks
- 3.) 70 marks
- 4.) 60 marks
- 5.) 50 marks

Correct Option - 2

Que. 36

Directions: Read the instructions carefully and answer the question below.

While playing musical chairs, eight friends – A, B, C, D, E, F, G, and H are sitting in a row. Some of them are facing north while some of them are facing south.

F is sitting fourth to the right of A and both of them are facing opposite directions. H is sitting second to the right of E who is facing north and he is the only immediate neighbour of A. Three people are sitting between C and D and both C and D are facing opposite directions. B is sitting to the immediate left of D but B is not sitting at any of the extreme ends. G is sitting fourth to the right of H. B is sitting second to the right of G and both of them are facing the same direction.

Who are the immediate neighbours of F?

- 1.) ED
- 2.) HB
- 3.) AC
- 4.) BG
- 5.) BD

Correct Option - 2

Que. 37

Who is sitting second to the left of C?

- 1.) B
- 2.) E
- 3.) F
- 4.) G
- 5.) A

Correct Option - 3

Que. 38

What is the position of B with respect to the position of E?

- 1.) Immediate right
- 2.) Second to the left
- 3.) Second to the right
- 4.) Immediate left
- 5.) Fourth to the right

Correct Option - 5

Que. 39

Who is sitting to the immediate left of H?

- 1.) G
- 2.) B
- 3.) C
- 4.) F
- 5.) A

Correct Option - 3

Que. 40

Four of the following five are alike in a certain way and thus form a group. Which of the following does not belong to the group?

- 1.) H
- 2.) A

3.) E

4.) C

5.) D

Correct Option - 4
