

SECTION : PART-A GENERAL INTELLIGENCE AND REASONING

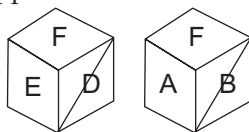

1. Select the combination of letters that when filled in the blanks in the same sequence will make the series logically complete.

_BFGK_HMIF_OKHL_ MJN_

- (a) EFJRS (b) CDKQT
(c) EDJQS (d) CFKRT
2. In a certain code language, 'RATE' is coded as '7532' and 'PART' is coded as '6735'. How is 'P' coded in the given language?

- (a) 2 (b) 6
(c) 5 (d) 7

3. A dice has its faces marked by letters A, B, C, D, E and F. Two different positions of the same dice are shown. Select the letter that will be on the face opposite to the

- (a) E (b) D
(c) F (d) B
4. What should come in place of the question mark (?) in the given series?

451 460 470 ? 493 506

- (a) 481 (b) 479
(c) 480 (d) 482
5. What should come in place of '?' in the given series based on the English alphabetical order?

EIK IGJ MEI QCH ?

- (a) IUA (b) UAI
(c) AUI (d) UAG
6. Six people, D, E, F, Q, R and S, are sitting around a circular table facing the centre (but not necessarily in the same order). S sits to the immediate right of D. E sits second to the left of Q. Q sits to the immediate left of D. F sits third to the right of Q. How many people sit between

R and F when counted from the left of F?

- (a) Three (b) Four
(c) Two (d) One
7. NT 6 is related to QR 1 in a certain way. In the same way, FN 8 is related to IL 3. To which of the following is JL 16 related, following the same logic?
- (a) MM 11 (b) NM 10
(c) LJ 10 (d) MJ 11

8. Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusion(s) logically follow(s) from the statement(s).

Statements:

All onions are potatoes.

No potato is a tomato.

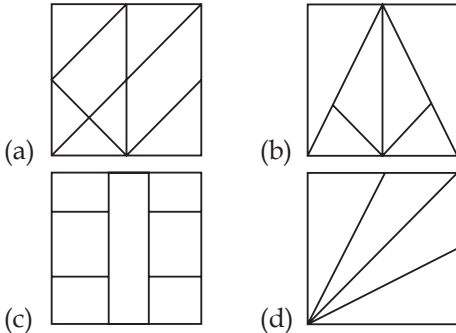

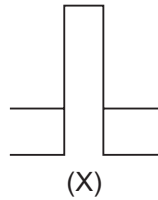

No potato is a corn.

Conclusions:

(I) No onion is a tomato.

(II) Some corns are tomatoes.

- (a) Both conclusions (I) and (II) follow.
(b) Only conclusion (II) follows.
(c) Only conclusion (I) follows.
(d) Neither conclusion (I) nor (II) follows.
9. The position(s) of how many letters will remain unchanged if each of the letters in the word ACTIVITY is arranged in reverse English alphabetical order?
- (a) Three (b) Four
(c) One (d) Two
10. What should come in place of the question mark (?) in the given series?
- 567 570 575 582 591 ?
- (a) 596 (b) 600
(c) 599 (d) 602
11. Select the option figure in which the given figure (X) is embedded as its part (rotation is NOT allowed).

12. A, B, C, D, E, F and G are sitting around a circular table facing the centre (but not necessarily in the same order). B sits third to the right of E. E sits second to the left of G. G is to the immediate right of F. G is not an immediate neighbour of E. A sits on the immediate right of B and C sits on the immediate left of E. How many people sit between D and B when counted from the left of D?

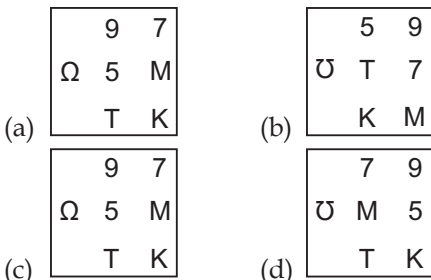

(a) Two (b) Three
(c) Four (d) One

13. In a certain code language, 'I eat breakfast' is coded as 'hk mr lt' and 'breakfast is healthy' is coded as 'xz hk bd'. How is 'breakfast' coded in the given language?

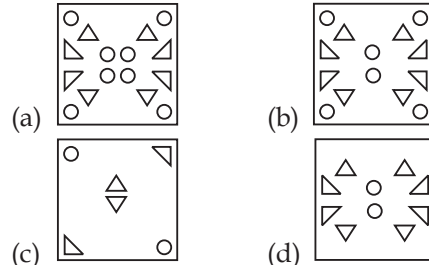

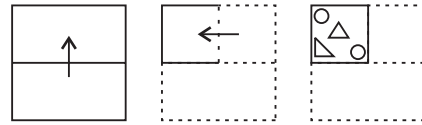

(a) ft (d) hk
(c) xz (d) mr

14. Identify the figure given in the options, which when put in place of the question mark (?) will logically complete the series.

T 5	K T	M K	7 M	
Ω K 9	Ω M 5	U 7 T	Ω 9 K	?
M 7	7 9	9 5	5 T	

15. A paper is folded and cut as shown below. How will it appear when unfolded?

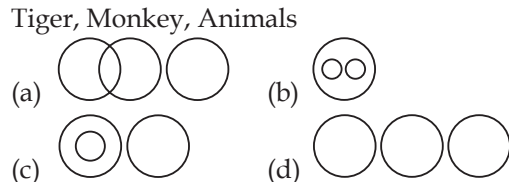

16. UHAR is related to XKDU in a certain way based on the English alphabetical order. In the same way, SDWC is related to VGZF. To which of the given options is IMOS related, following the same logic?

(a) MOSW (b) GQTU
(c) LPRV (d) GORT

17. What will come in the place of the question mark (?) in the following equation, if '+' and '×' are interchanged and '-' and '÷' are interchanged?
 $51 \div 6 + 9 \times 84 - 4 = ?$

(a) 25 (b) 21
(c) 18 (d) 30

18. Select the Venn diagram that best illustrates the relationship between the following classes.
Tiger, Monkey, Animals

19. Based on the English alphabetical order, three of the following four letter-clusters are alike in a certain way and thus form a group. Which is the one that DOES NOT belong to that group?

(Note: The odd one out is not based on the number of consonants/vowels or their position in the letter-cluster.)

(a) BZC (b) NLO
(c) QPR (d) PNQ

20. In a certain code language,
'A + B' me 'A is the daughter of B',
'A - B' me 'A is the brother of B',
'A × B' me 'A is the wife of B' and
'A ÷ B' me 'A is the father of B'.

Based on the above, how is P related to T if 'P + Q × R - S ÷ T'?

- (a) Mother's brother's daughter
- (b) Mother's brother's wife
- (c) Father's brother's daughter
- (d) Father's brother's wife
